

PUBLIC SCHOOLS

It is the policy of a school's Board of Directors to organize and maintain the distinction between those activities which are appropriate to the Board of Directors as the legislative governing body of the School District and those administrative activities which are to be performed by the Superintendent of Schools and staff. The function of the Board can be described as policy making, appraisal, and evaluation.

The Board of Directors has the further duty of providing the financial means by which the education program is conducted and also ensures the community is informed of the needs, purposes, values, and status of the school.

Webster City Community School Board
